It is believed that before putting the logs in the water, a ritual involving sacrifice of an animal was performed for the safe journey of logs. One contractor refused to perform this ritual and according to the folklore around 5000 logs disappeared in the water. When the contractor realised his mistake, he went ahead with the sacrifice and asked for forgiveness. This resulted in miraculously appearing of all the missing logs from this lake and people saw fairies also coming out from the water. The lake is still considered auspicious and people refrain from taking a dip here. The depth of the lake is not really known.
